

8th International CINet Conference

Continuous Innovation - Opportunities and Challenges

Gothenburg, Sweden, 7-11 September 2007

Organising Committee

Dr. Mats Magnusson
Dr. Sven Lindmark
Prof. Maureen McKelvey
Prof. Pär Åhlström

Academic Advisory Board

Dr. José Albors
Prof.dr.ir. Harry Boer
Prof.dr. Paul Hyland
Dr. Frances Jørgensen
Dr. Bjørge Laugen
Dr. Antonella Martini
Dr. Terry Sloan

● The 8th CINet Conference

Continuous innovation is the ongoing process of initiating, developing, operating and improving new and existing configurations of products, market approaches, processes, technologies and competencies, organisation and management systems. As organisations strive to achieve a synergistic balance between short-term oriented, operationally-effective exploitation strategies and longer-term, flexibility-oriented exploration strategies, the rapid growth of the global knowledge economy has placed learning at the centre of this critical balance.

The 8th International CINet Conference provides a forum for scholars and practitioners to present and discuss what they see as the key opportunities and challenges related to continuous innovation.

● Who should attend?

Practitioners, academics and consultants involved in managing or studying innovation and change are invited to submit papers relevant to the conference theme and the various tracks, or simply register for conference attendance to gain access to leading research outcomes in this key area.

● PhD Workshop

In addition to the main conference there will be a PhD Workshop (on 7, 8 and 11 September) designed for doctoral students at all stages of their dissertation. The CINet PhD workshop offers PhD students a unique possibility to present and discuss, receive feedback, and exchange comments and views on their research in an inspiring academic community of fellow PhD students and experienced researchers active in the CINet community.

Abstract submission before: 1 March 2007

More and regularly updated information can be found on the [conference website](#).
